Santa's Special Delivery

CELEBRATE CHRISTMAS IN QUIET MANNER

Christmas, 1922, will be celebrated in Marble Hill very quietly. Most of the college students will spend the Christmas holidays at home.

A Christmas tree and program was held Tuesday night in the chapel of the college, for the students of the college.

Christmas services were held Wednesday night at the Baptist church, the main feature of which was a Christmas tree.

Christmas services will be held at the Methodist church Sunday morning, providing the prevailing epidemic of colds does not prevent.

TRAVELING MAN FOUND DEAD

Cape Girardeau Southeast Missourian J. P. Lynch, veteran traveling salesman who has been visiting this district for the past quarter of a century, was found dead in his room at a local hotel shortly before noon today. Indications were that aged drummer expired as he prepared to go to bed Sunday night as the bed had been pulled back.

The lifeless body of Lynch was found on the floor of the room, his head resting against the door leading to adjoining room, near the head of his bed. He was undressed except for his shirt.

Lynch, who was 73 years old, was in good spirits at the hotel on Sunday evening, friends said. He appeared to be in as good health as usual and made no complaint of feeling poorly. He retired at his usual time.

The failure of Lynch to appear in the lobby of the hotel this forenoon aroused the curiosity of the head clerk and shortly before the noon hour, he dispatched a porter to the room to awaken the salesman. Unable to gain admittance to the room, which was locked on the inside, the porter looked through the transom glass and saw the lifeless body on the floor.

The coroner was notified and an inquest was to be conducted this afternoon by Deputy Gust Schulz.

Lynch represented the Jones Woodenware Company of St. Louis. He was unmarried and his company, over long distance, today, said they knew little about the personal affairs of their representative. Lynch had visited Cape Girardeau and district in the interests of other companies previous to his connection with the Jones company.

Lynch had made many friends in the district and he was known as a particularly competent salesman.

TOWN PICKUPS

There seems to be an epidemic of colds in Marble Hill and vicinity. A number of students have been unable to attend school.

A farmer, after listening to Claude Alexander's radio gave us the following information: "I shipped 150 pounds of dressed turkey to St. Louis yesterday. Afterward I heard the market dropped ten cents. The report I just heard over the radio gives the market as only falling four cents. That will save my wife some tears."

SPLITTING \$20 BILLS UNPROFITABLE

P. B. Kappelman, Ivan Luther Wolfe, Tulsa, Oklahoma counterfeiter, who was arrested here last July 9 for "splitting" \$20 Federal reserve bank and passing them of one side of \$1 silver certificates, was sentenced in district court yesterday to serve eighteen months at Leavenworth, when he pleaded guilty before District Judge Farris.

Mrs. Wolfe, his wife, who passed one of the bogus bills here, also pleaded guilty and was fined \$500, collectable on execution, and sentenced to serve one day in city jail. Mrs. Wolfe's sister, Miss Grace Houkoff, was pleaded guilty to passing three was fined \$500 and sentenced to serve two months in jail.

The court's clemency in the cases of the two women was suggested by assistant District Attorney Allen Curry, who said that Mrs. Wolfe had a 10 months old baby and that it was the first offense of the defendants. Wolfe acknowledged that he taught his wife and a sister-in-law to split the bills and raise them.

"The statue provides a penalty of not more than \$5000 fine and imprisonment not more than fifteen years," Judge Farris said. "It makes it fine or imprisonment or both. This matter of forging and counterfeiting United States money is getting very common lately."

The three were arrested by United States Service operatives in Maplewood. Wolfe said he had been in the business of raising bills about a month.

RALLY

The association B. Y. P. U. of the St. Francis Baptist Association held its first meeting here, Saturday at the Baptist church.

The program began at 1:30 P. M., and there were some very interesting and profitable subjects discussed. At 4:00 P. M. the meeting adjourned until the evening session.

The evening session was held in the College Chapel and at this time Rev. Jenkins, the pastor gave a very interesting lecture then the crowd was invited over to the girls' hall where a social hour was spent after which refreshments were served. All had a very enjoyable time.

MAYFIELD WINS EASILY FROM BLODGETT IN FIRST ROOF CONTEST

Last Friday night, the Mayfield Bruins won their first game of the season by defeating Blodgett 24-7. The Blodgett aggregation is made of good men who, they have had some pretty good training, but were unable to meet the contest of the more experienced team.

Mayfield lined out a number of new men in line, among them 13 men in all. The Bruins won (second round) held the victory for 6 minutes and were awarded to score a field goal.

Bring us your clover seed, we pay from \$7.00 to \$9.00 per bushel for them. C. H. Walter, Jackson, Mo.

GIFT FROM YALE GRADUATES

San Dial That Belonged to the Founder of the University Presented to College.

The Elihu Yale sun dial, accepted by the corporation at its meeting in September, has been presented to the university by the following graduates who have succeeded in purchasing this interesting memento of the founder of Yale: Garrison G. Dwyer, 1919; Clarence W. Bacon, '21; Henry A. Smith, '28, and H. Hyman Hackett, '24 Hon., and H. Eden Dickson, Esq., of Eden Lodge, Woodbridge, Suffolk, England.

The sundial, originally owned by Elihu Yale, has its coat of arms and the date 1708 on it. It is a life-size figure of a West Indian negro, naked in head, standing in a half-kneeling position with arms upraised carrying the bronze dial. The dial has never been out of the possession of the descendants of Elihu Yale until purchased this summer by H. Hyman Hackett in cooperation with George E. MacLean of the American Universities union in Europe for the group of graduates who have just presented it to Yale.

This purchase is the culmination of efforts made during the last 15 years by Yale men. The final location of the dial on some suitable site is now being arranged for by Garrison G. Dwyer, representing the donors, and the consulting architect of the university, when approved by the corporation committee on architectural plan—Yale Daily News.

PHOTOGRAPHER WAS IN LUCK

Despite Unlabeled For Action of Guard Baboon He Got Pictures of Rest of Group.

In an interesting article entitled "Five Thousand Miles on Foot in Central Africa" in the Wide World Magazine is an amusing account of the photographing of baboons gathered in the dried-up bed of a river.

"It was these river beds," writes the author, "that I usually sought, for one may be perfectly certain that in the dry season the filthy animals will come thither to scratch for the last remaining drops of water. For the purpose of photographing this special group of baboons I had selected a spot in the branches of a withered uprooted tree. I had been there ten minutes, waiting for the animals, which were running about all over the place, to compose themselves into a group, when just as I was on the point of releasing the shutter, I became aware of a rustling in the branches above me. The next moment a weight that seemed like a ton descended on my head."

"As it happened, the sudden shock caused me to operate the shutter, with the result that I got quite a good picture. Then, having hastily evacuated my position in the trees, I discovered that my head had been utilized as an observation platform by the biggest baboon of the company and the fellow was now quizzically gazing at me from the branches."

HIGH TRIBUTE TO RABBI WISE

Churchman of Another Faith Expresses Deep Admiration for Character of Jewish Leader.

Every time I hear Rabbi Wise it makes me want to play trumpet from my own church; he is so vital; so vibrant with intellectual power, so ardent with moral electricity—like a bit of human radiance.

Tall, athletic, graceful, his dark brown eyes aglow with their brightness, his deep bass voice as velvet in appeal, and resonant in denunciation; his style brilliant with epigrams, swift opinions and phrases that sting the mind with the surprise of beauty—his charm as an orator is equal to his daring as a prophet.

One moment he is walking to and fro like a lawyer at the bar; another, he is expounding some injustice or absurdity with a quick saber-thrust, with a glint of humor and now a gleam of prophetic indignation.

Emerson said that the man who speaks the truth will find life sufficiently dramatic. It has been so with Rabbi Wise, who early took for his motto: "I will try to see things as they are, and then I will try to say them as I see them." His gallant fight for a free pulpit in a free synagogue is memorable in the religious life of America.

As eloquent as he is fascinating, in New York he is not only a personality but an institution—admired, feared and idolized by turns—a leader of his own people and a captain of the forces striving for social justice, civic honor, and national idealism—Joseph Fort Newton in the Atlantic Monthly.

FROM ANCIENT GREEK COINS

Curator of Boston Museum Believes He Has Found Origin of Old Golden Receptacle.

Lacey D. Caskey, curator of classical art at the Boston Art museum, believes that he has made a discovery regarding the origin of the old gold Greek libation bowl which has just been put on exhibition at the Art museum.

"I found the bowl weighed the equivalent of 100 Babylonian shekels, 100 Persian darics and 100 Carianian staters," explained Mr. Caskey. "The Greeks took their unit of weight from the silver and when I discovered that the bowl weighed the same in actual pounds as 100 Greek money, I was satisfied that the bowl was made from Greek gold coins of the seventh century, B. C."

"Another very interesting feature of the bowl," said Mr. Caskey, "is its inscription. The word of Cypriotes dedicated this bowl to Athena. The bowl was found at Olympia and it is thought that it was a part of the spoils after the conquest of Ionia. Cypriotes figure in one of the most tragic of Greek legends, as the inscription bearing the name is considered of historical value. One son of Cypriotes Iliad—said to be one of the seven who were at Troy."

"Gehenna"

Gehenna is the Greek name for the Valley of Hinnom, situated south and west of Jerusalem. According to Josephus, it was instituted by Solomon (1 Kings 11:17). It was offered there and for good reason. It was the place chosen by the Jewish kings for the burning of their idolatrous altars. When Josiah, king of Judah, reformed his nation's worship, he made Gehenna a place of defilement by covering it with human bones, after that it became the compost of the city. There were kept constantly burning there to purify the bodies of malefactors, carcasses of animals, and whatever else was cast into it from the city. The word "Gehenna" occurs frequently in the Scriptures, and in the new Testament is translated "hell"—Mark 9:43, 45.

Plan Fine African Roadway

For several years work has been in progress on a roadway to encircle the entire peninsula at the southern extremity of South Africa, on which Capetown is situated. The roadway is now completed, and at the opening ceremonies, last May, it was claimed to be the most luxurious drive in the world, surpassing even the famous Champs-Élysées road at Montone. In the south of France. The road is 125 miles long, and for most of its length is paved in the rocky sides of the mountains that tower over the entire peninsula of the cape—Popular Mechanics Magazine.

Science in Law Court

When the words become poison? Science and medicine in law court. View of the science of driving a noisy motorcar. An automobile which photographs itself while recorded the sound of its engine in other noisy machines. Science and law are not infrequently mixed.

The motorcar is now so noisy that more and more attention is being paid to the science of driving a noisy motorcar. An automobile which photographs itself while recorded the sound of its engine in other noisy machines. Science and law are not infrequently mixed.
